

# The Daily Freeman.

MONTPELIER, DEC. 19, 1863.

**FROM CAPT. DILLINGHAM.** A private note just received at Waterbury, dated Dec. 4, from Capt. Dillingham, states that he is safe and sound in Libby Prison, Richmond, having been taken prisoner after his horse was shot under him.

**PARENTHOOD.** Prof. E. Z. Wickes, an eminent physiologist, will commence a course of Lectures on the "Science of the Mind," at Village Hall, Tuesday evening next. Prof. Wickes comes highly recommended, and is spoken of by the press in the localities which he has visited in terms of marked commendation. He has already visited many of the principal villages of the State, where he has attracted large audiences. He gives lectures in the afternoon exclusively for ladies. Admittance 15 cents. Ladies and Children 10 cents. Families 30 cents.

The *Rutland Herald* says, his lectures combining Physiology with the study of any other kind of study, and are appreciated by public examination as very instructive and interesting.

**CASUALTIES IN THE SHARP SHOOTERS.** The following casualties occurred in the 1st Vt. Company of Sharpshooters in the battle of Mine Run, and Lewistown.

Wounded, Corp. Hooper, dead, Corp. Jordan, b. Eugene Paine, Brookfield, arm, Sherard Brown, New Haven, hand. Two others were slightly wounded.

The number of men enlisted, and whose enlistment contracts have been received by the Adjutant General, is as follows: For old regiments, 954; new regiment and battery, 460.

**PATRIOTIC.** Mr. John McIntyre of Bradford has ten grandsons in the Union army. Four are veterans and one has lost his arm and is in the invalid corps.

**FULL.** The quota of Burlington under the last call is full, and something over. The men enlisted are said to be a remarkably good lot, too. Enlistments still continue at the rate of three or four per day.

Capt. H. F. Crossman, Co. F, 2d Vt., has been appointed Captain in the Invalid Corps and assigned to duty as Assistant Provost Marshal at Baltimore.

**WELL DONE.** The town of Warren has raised her full quota of Volunteers, and a surplus of four. All good able-bodied men. Beat that who can.

**LECTURE.** The 2nd lecture of the course next Thursday eve, at Village Hall, will be delivered by Rev. C. C. Parker of Waterbury, instead of Rev. Mr. Shelton, as advertised last week. This lecture like all the lectures of the course is free. We trust our people will give Mr. Parker a full house. His lecture, we know will deserve one.

**INITIAL PAPER.** Wilder, at the *Freeman* Bookstore has procured a stamp and the alphabet in various styles of letters, and is now prepared to put initials on note paper and envelopes to order. Ladies we believe, have a particular fancy for initial paper, and we advise them to call on Wilder and replenish their writing desks with excellent and neatly stamped material for their wide correspondence.

**CHRISTMAS.** The near approach of Christmas brings to the minds of the little folks Santa Claus, and his annual visit and gifts. Wilder, at the *Freeman* Bookstore, has taken the pains to fill his shelves and show case, with all manner and styles of handsome, entertaining, instructive, amusing and inviting gifts, and those who intend to make Santa Claus' visit as agreeable as possible this year, should examine Wilder's stock.

## BY TELEGRAPH

TO THE FREEMAN.

4 O'CLOCK, P. M.

**CAATTANOGA, Dec. 18.** The rebel Gen. John Morgan, escaped across Tennessee river at Gillispies landing, 60 miles above here, on Monday, P. M. Cavalry are scouting the country and possibly Morgan may be taken.

Wheeler has regained Hardee and is organizing his cavalry force near Dalton. Capt. William Cummings, and Robert Cummings who escaped with him, were captured, together with fourteen of his men of thirty. Reaching the neighborhood of the river, they impressed every citizen to prevent alarm being given, and hurriedly constructed a raft at the mouth of Mills Creek, on which an attempt to cross was made. A citizen who eluded their pickets, gave the alarm, and the attempt was nearly frustrated.

On Wednesday, Ferguson, the guerrilla, with a small force captured a part of the train of the 1st cavalry division, on the march from Memphis to Sparta.

Hardee's headquarters are at Dalton, and pockets as far as the rebel. His army including the Georgia militia is 35,000 strong, and is represented as utterly demoralized.

Gen. Grant and Sheridan left for Bridgeport today.

There is some news from Gen. Granger who, with Gen. Burnside, is probably fighting Longstreet near Richmon.

**NEW YORK, Dec. 19.** The *Herald's* Washington dispatch says another plot for the seizure of a vessel and cargo by rebel emissaries has been discharged, this time in season to prevent the attempt being made. The vessel was the barque "A 1" which was loading at Philadelphia. The pirates were to ship as seamen and seize her after she left port. There was a quantity of ordnance on board, and the vessel was about to take in a quantity of powder when the plot was revealed, and a revenue cutter lay along side of her. All the facts will be given to the public in a few days.

The rebel force which made the raid on the Orange and Alexandria railroad last night, were two battalions of the 4th Virginia cavalry. Maj. Mosby was not of the party. The damage done to the road was trifling, as the bridges were so saturated with rain that they would not burn.

**CAIRO, Dec. 18.** Memphis dates to the 16th, are received. The force sent out against the rebels who had been firing into a steamer at Waterproof, found them, killed 16, wounded several and took some prisoners.

**HEADQUARTERS UNITED STATES FORCES,**

Western Virginia, December 18.

Gen. Kelley to-night received a dispatch from Gen. Sullivan of the capture of Col. Carter of the 1st Virginia cavalry and a number of other prisoners, by a force of the 22d Pennsylvania cavalry, sent out on a reconnaissance in Loudoun county, and towards Upperville. Near the latter place they captured this party.

The news of Union movements continuous highly favorable.

**WASHINGTON, Dec. 19.** Gen. Meade will remain in the command of the Army of the Potomac during the present winter.

**NEW YORK, Dec. 19.** The *Tribune's* dispatch says: Maj. Gen. Hitchcock has returned from Fortress Monroe, having given his official sanction to Gen. Butler's plan, by which it is hoped that our suffering soldiers will be released. Gen. Butler is to send to City Point 600 to 800 Confederate rebels with an offer to commissioner Ould to exchange man for man.

If this experiment proves successful exchanges on this basis will be resumed.

The most stringent orders have recently been issued, under which the rebel authorities are to be held to strict accountability with regard to their colored prisoners.

The Chesapeake having been captured in English waters, will be given to the colonial authorities. Secretary Welles and Seward have so telegraphed to Halifax. It is not believed, however, that the pirates will be permitted to put to sea again.

## American & Foreign Patent.

R. H. EDDY.

SOLICITOR OF PATENTS.

Late Agent of U. S. Patent Office, Washington, under the Act of 1837.

70 State street, opposite Kilby st., Boston.

AFTER an extensive practice of upwards of twenty years, continuing to secure Patents in the United States—also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents executed on liberal terms and with despatch. Researches made into American or Foreign Works, to determine the validity or utility of Patents or inventions, and legal advice rendered on all matters touching the same. Copies of the claims of any Patents furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England but through it inventors have advantages for securing patents, of ascertaining the patentability of inventions unobstructed, if not immediately successful to any which can be offered to them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS is THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe and can prove, that if no other office of the kind are the charges for professional services so moderate. The immense volume of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

## TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful patent attorneys with whom I have had official intercourse."

CHAS. MASON, Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."

EDMUND RYKIE, Late Commissioner of Patents.

"Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great ability and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."

JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made, on twice rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.
